

Job #12

Security -

- You will be working with Dan Harden who is the **Head of Chamber Volunteer Security**
- Dan will have a quick meeting with you before the Brewfest starts, and will suggest places for you to be and what to look for regarding the Security of the Brewfest.
- All attendees, food vendors, brewers and volunteers should have a bracelet on. (So in other words – EVERYONE should have a bracelet – including you!) If they are planning on sampling they should have a yellow or green bracelet. If they are not participating in sampling they should have a fluorescent orange bracelet on. All bracelets show that they are over 21!
- All who are sampling should be drinking from the “OFFICIAL BREWFEST SAMPLING GLASS” ONLY! If they are drinking from ANY OTHER GLASS OR CONTAINER, they need to transfer it to their Brewfest glass or empty it.
- If you see any trouble starting to happen please notify DAN HARDEN immediately before it escalates.
- If you are stationed by the EXIT – people are able to exit and re-enter, but NO ALCOHOL is to leave the enclosed Brewfest area, and they are not allowed to bring any alcohol in.
- We also have a Security Company there to assist. They can escort a person to the police. They or Dan will make the call.
- We will have an ambulance near the stage – if anyone needs assistance call someone over to attend to their needs. Keep the crowd back in case they need to leave the Brewfest to transport the person to the hospital. They are also there as a first-aid station.
